

# PETRO'S JEWELERS

## Custom Made Jewelry

**T**hey say that any journey starts with the first step and the same can be said of designing a custom design piece of jewelry. Instead of a first step it starts with an idea, from that idea comes a sketch of what a customer has in mind. Once the sketch is approved.

At this point, the goldsmiths at Petro's Jewelers turn the sketch into a wax carving. This gives the customer a chance to see and touch their custom design jewelry piece. While

in wax form they can make any design changes to their custom piece.

Petro's Jewelers then cast the custom design piece in whatever metal the customer likes. Petro's makes jewelry in platinum, 18K gold, 14K gold, 10K

gold in both yellow and white gold or silver. At this point Petro's will set the customers colored stones or diamonds that they either own or purchased from Petro's. The piece is polished, cleaned and then presented to the customer.

And you can rest easy knowing that Mike Petro has committed to his customers, impeccable quality, accuracy, craftsmanship quality control and service to all custom design pieces made in his store.
