

# PETRO'S JEWELERS

## "Peace of Mind Guaranteed"

When a customer comes into Petro's Jewelers and asks "do you repair jewelry", it always brings a smile to the face of Mike Petro. Why? Because Petro started his jewelry career in 1971 in Elmira, NY learning to repair jewelry for one of the largest jewelry repair shops in the Northeast. Petro then moved to Williamsport in 1978 where he opened his own jewelry repair business. Soon over 27 jewelers from all over the state of Pennsylvania were sending over 10,000 jewelry repair jobs every year to Petro's. The repair jobs consisted of everything from simple chain soldering, sizing of rings, replacing or resetting stones, repairing prongs to elaborate custom design work.

**Stop by our newly remodeled store and allow our staff to assist you with your jewelry purchases!

Today, Petro's Jewelers employs three goldsmiths with a combined 75 years of experience in jewelry repair and custom design work, all done on the premises. So, if you have a diamond ring that is worn out and in need of repair or you want a new look, the

goldsmiths at Petro's Jewelers can design something new for you or they can restore your old ring to look like new.

Whether you are having jewelry repaired or looking for a new piece of custom jewelry you can rest easy knowing that Mike Petro is

committed to his customers. His first concern always is the quality, craftsmanship and service for all repairs brought into his store. That sets Mike apart from others in the jewelry business. So, for all of your jewelry repairs visit the experts at Petro's Jewelers.
